Yapaki (YPK) Whitepaper

1. Introduction

Yapaki (YPK) is a next-generation decentralized token designed to combine early community energy with long-term, sustainable utility. Through well-structured tokenomics and a progressive burn model, Yapaki aims to become a powerful force across DeFi, real-world payments, and decentralized apps.

2. Mission

To reward early believers while building an ecosystem where Yapaki powers real-world apps, enabling value, scarcity, and community ownership over time.

3. Vision

Yapaki is designed to support:

- Everyday payments
- Decentralized apps (dApps)
- NFT platforms
- Community-led initiatives

It is a project built by the people, for the people — community-driven and future-focused.

4. Token Overview

Attribute Detail

Token Name Yapaki

Symbol YPK

Blockchains Binance Smart Chain (BSC) & Ethereum (ETH)

Max Supply 6,000,000,000,000 YPK

Decimals 18

Contract (BSC) 0x4EF08ed063779CDaF398BaCE7ae8294C6402525b

Contract (ETH) 0x41b9a970EC20f695b5F5b27D1B29a4Eb7E17408E

5. Tokenomics

Total Supply: 6 Trillion YPK

Category Allocation

Presale 30%

Liquidity Pool 25%

Treasury 5%

Development Fund 10%

Marketing 5%

Burning Reserve 15%

Community Airdrops 10%

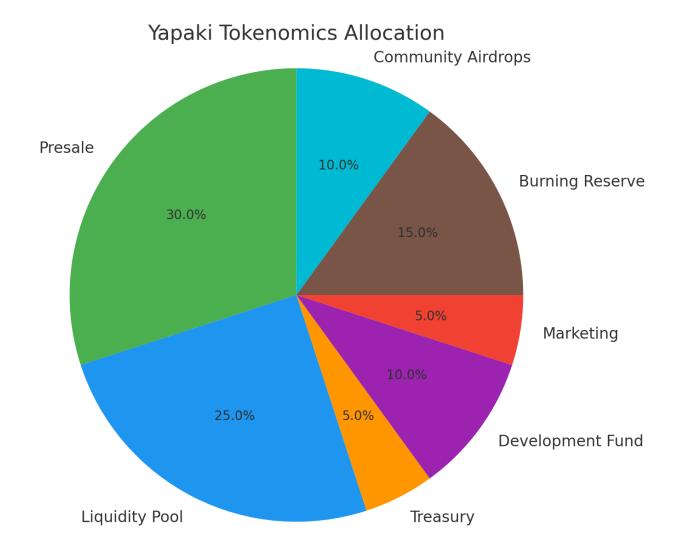

Key Points:

• Presale: Builds initial momentum and community support.

• Liquidity Pool: Ensures smooth post-launch trading.

• Burning Reserve: Fuels supply reduction as roadmap milestones are achieved.

6. Tokenomics Chart

7. Presale Information

Stage	Bonus	Price per YPK (USD)	Duration
Stage 1	20%	0.0000002571	2 months
Stage 2	10%	0.000008751	1 month
Stage 3	5%	0.000061000	1 month

- Accepted Currencies: BNB and ETH
- Bonuses reduce over time to reward early buyers

8. Future Applications

- Yapaki Pay: Crypto payment app for merchants and users.
- Yapaki Wallet: Secure YPK storage and transfers.
- Yapaki Vault: Lock tokens securely
- Yapaki Swap: Trade YPK cross-chain seamlessly
- Yapaki Staking: Earn rewards and vote in governance
- All applications will **burn or lock YPK**, driving scarcity.

9. Burning Campaigns

Yapaki features an innovative, multi-layered burn strategy:

- Scheduled Burns: Monthly burns tied to app revenue
- Event Burns: Triggered by milestones (e.g. new app launches)
- Community Burns: Voted by holders and funded via DAO treasury or fees

Result: Reduced supply = Increased scarcity = Greater value

10. Roadmap

Quarter	Milestones
Q2 2025	Presale launch, CMC/CG listing, liquidity pool setup
Q3 2025	Staking launch, 1st burn event, YapakiPay Beta
Q4 2025	NFT Marketplace launch, strategic partnerships
Q1 2026	DAO governance launch, Yapaki Games Alpha

11. Why Invest in Yapaki?

- Transparent and fair tokenomics
- Milestone-based burn model
- Ecosystem with real-world utility
- Dual-chain support (BSC + ETH)
- Community-first: No VCs or hidden allocations
